

## HUBLOT AND BERLUTI

# STYLE OR NOTHING

---

Berluti's signature Venezia leather and its famous patina, combined with Hublot's innovation in watchmaking creates the Classic Fusion Berluti. In 2015, Berluti adorned an array of straps and dials for the Classic Fusion model. The fusion of expertise sets this limited edition apart with its bold, distinctive personality. The artful combination of the watchmaker's signature innovation, with the craftsmanship of the soulful shoe company, exemplifies elegance, defining the spirit of the classic gentleman.

---

## RITUAL

---

The Classic Fusion straps have been created using the same procedure used in Berluti's leather production: from patterning, shaping, cutting and assembling the pieces of leather, to the mounting of the strap and lacquering. Each strap is enviably exclusive. The timepieces are presented in Venezia leather settings of nero grigio and tobacco colors. The wax and brushes that come with the watch are an invitation to the ritual of caring for your bracelet's shine, whenever necessary.

## CLASSIC FUSION BERLUTI SCRITTO

---

The straps of the limited edition Classic Fusion Berluti King Gold are expertly carved with the Berluti Scritto signature, which is inspired by 18th century calligraphy. The tobacco color hued leather that adorns the dial strikes the perfect balance with the warm nuances of Hublot's King Gold.
